INTERNATIONAL TELECOMMUNICATIONS SATELLITE ORGANIZATION

Pub. L. 99-93, title I, §146, Aug. 16, 1985, 99 Stat. 425, provided that:

“(a) POLICY.—The Congress declares that it is the policy of the United States—

“(1) as a party to the International Telecommunications Satellite Organization (hereafter in this section referred to as ‘Intelsat’), to foster and support the global commercial communications satellite system owned and operated by Intelsat;

“(2) to make available to consumers a variety of communications satellite services utilizing the space segment facilities of Intelsat and any additional such facilities which are found to be in the national interest and which—

“(A) are technically compatible with the use of the radio frequency spectrum and orbital space by the existing or planned Intelsat space segment, and

“(B) avoid significant economic harm to the global system of Intelsat; and

“(3) to authorize use and operation of any additional space segment facilities only if the obligations of the United States under article XIV(d) of the Intelsat Agreement have been met.

“(b) PRECONDITIONS FOR INTELSAT CONSULTATION.—Before consulting with Intelsat for purposes of coordination of any separate international telecommunications satellite system under article XIV(d) of the Intelsat Agreement, the Secretary of State shall—

“(1) in coordination with the Secretary of Commerce, ensure that any proposed separate international satellite telecommunications system comply with the Executive Branch conditions established pursuant to the Presidential Determination No. 85-2 [49 F.R. 46987]; and

“(2) ensure that one or more foreign authorities have authorized the use of such system consistent with such conditions.

“(c) AMENDMENT OF INTELSAT AGREEMENT.—(1) The Secretary of State shall consult with the United States signatory to Intelsat and the Secretary of Commerce regarding the appropriate scope and character of a modification to article V(d) of the Intelsat Agreement which would permit Intelsat to establish cost-based rates for individual traffic routes, as exceptional circumstances warrant, paying particular attention to the need for avoiding significant economic harm to the global system of Intelsat as well as United States national and foreign policy interests.

“(2)(A) To ensure that rates established by Intelsat for such routes are cost-based, the Secretary of State, in consultation with the Secretary of Commerce and the Chairman of the Federal Communications Commission, shall instruct the United States signatory to Intelsat to ensure that sufficient documentation, including documentation regarding revenues and costs, is provided by Intelsat so as to verify that such rates are in fact cost-based.

“(B) To the maximum extent possible, such documentation [documentation] will be made available to interested parties on a timely basis.

“(3) Pursuant to the consultation under paragraph (1) and taking the steps prescribed in paragraph (2) to provide documentation, the United States shall support an appropriate modification to article V(d) of the Intelsat Agreement to accomplish the purpose described in paragraph (1).

“(d) CONGRESSIONAL CONSULTATION.—In the event that, after United States consultation with Intelsat for the purposes of coordination under article XIV(d) of the Intelsat Agreement for the establishment of a separate international telecommunications satellite system, the Assembly of Parties of Intelsat fails to recommend such a separate system, and the President determines to pursue the establishment of a separate system notwithstanding the Assembly’s failure to approve such system, the Secretary of State, after consultation with the Secretary of Commerce, shall submit to the Congress a detailed report which shall set forth—

“(1) the foreign policy reasons for the President’s determination, and

“(2) a plan for minimizing any negative effects of the President’s action on Intelsat and on United States foreign policy interests.

“(e) NOTIFICATION TO FEDERAL COMMUNICATIONS COMMISSION.—In the event the Secretary of State submits a report under subsection (d), the Secretary, 60 calendar days after the receipt by the Congress of such report, shall notify the Federal Communications Commission as to whether the United States obligations under article XIV(d) of the Intelsat Agreement have been met.

“(f) IMPLEMENTATION.—In implementing the provisions of this section, the Secretary of State shall act in accordance with Executive order 12046 [set out under section 305 of this title].

“(g) DEFINITION.—For the purposes of this section, the term ‘separate international telecommunications satellite system’ or ‘separate system’ means a system of one or more telecommunications satellites separate from the Intelsat space segment which is established to provide international telecommunications services between points within the United States and points outside the United States, except that such term shall not include any satellite or system of satellites established—

“(1) primarily for domestic telecommunications purposes and which incidentally provides services on an ancillary basis to points outside the jurisdiction of the United States but within the western hemisphere, or

“(2) solely for unique governmental purposes.”

§ 702. Definitions

As used in this chapter, and unless the context otherwise requires—

(1) the term “communications satellite system” refers to a system of communications satellites in space whose purpose is to relay telecommunication information between satellite terminal stations, together with such associated equipment and facilities for tracking, guidance, control, and command functions as are not part of the generalized launching, tracking, control, and command facilities for all space purposes;

(2) the term “satellite terminal station” refers to a complex of communication equipment located on the earth’s surface, operationally connected with one or more terrestrial communication systems, and capable of transmitting telecommunications to or receiving telecommunications from a communications satellite system.

(4) the term “associated equipment and facilities” refers to facilities other than satellite terminal stations and communications satellites, to be constructed and operated for the primary purpose of a communications satellite system, whether for administration and management, for research and development, or for direct support of space operations;

(5) the term “research and development” refers to the conception, design, and first creation of experimental or prototype operational devices for the operation of a communications satellite system, including the assembly of separate components into a working whole, as distinguished from the term “production,” which relates to the construction of such devices to fixed specifications compatible with repetitive duplication for operational applications; and

(6) the term “telecommunication” means any transmission, emission or reception of signs, signals, writings, images, and sounds or intelligence of any nature by wire, radio, optical, or other electromagnetic systems.

(7) omitted;

(8) the term “corporation” means the corporation authorized by subchapter III of this chapter.

SUBCHAPTER VI—COMMUNICATIONS
COMPETITION AND PRIVATIZATION

PART A—ACTIONS TO ENSURE PRO-COMPETITIVE
PRIVATIZATION

§ 761. Federal Communications Commission licensing

(a) Licensing for separated entities

(1) Competition test

The Commission may not issue a license or construction permit to any separated entity, or renew or permit the assignment or use of any such license or permit, or authorize the use by any entity subject to United States jurisdiction of any space segment owned, leased, or operated by any separated entity, unless the Commission determines that such issuance, renewal, assignment, or use will not harm competition in the telecommunications market of the United States. If the Commission does not make such a determination, it shall deny or revoke authority to use space segment owned, leased, or operated by the separated entity to provide services to, from, or within the United States.

(2) Criteria for competition test

In making the determination required by paragraph (1), the Commission shall use the licensing criteria in sections 763 and 763b¹ of this title, and shall not make such a determination unless the Commission determines that the privatization of any separated entity is consistent with such criteria.

(b) Licensing for INTELSAT, Inmarsat, and successor entities

(1) Competition test

(A) In general

In considering the application of INTELSAT, Inmarsat, or their successor entities for a license or construction permit, or for the renewal or assignment or use of any such license or permit, or in considering the request of any entity subject to United States jurisdiction for authorization to use any space segment owned, leased, or operated by INTELSAT, Inmarsat, or their successor entities, to provide non-core services to, from, or within the United States, the Commission shall determine whether—

(i) after April 1, 2001, in the case of INTELSAT and its successor entities, INTELSAT and any successor entities have been privatized in a manner that will harm competition in the telecommunications markets of the United States; or

(ii) after April 1, 2000, in the case of Inmarsat and its successor entities, Inmarsat and any successor entities have been privatized in a manner that will harm competition in the telecommunications markets of the United States.

(B) Consequences of determination

If the Commission determines that such competition will be harmed or that grant of

such application or request for authority is not otherwise in the public interest, the Commission shall limit through conditions or deny such application or request, and limit or revoke previous authorizations to provide non-core services to, from, or within the United States. After due notice and opportunity for comment, the Commission shall apply the same limitations, restrictions, and conditions to all entities subject to United States jurisdiction using space segment owned, leased, or operated by INTELSAT, Inmarsat, or their successor entities.

(C) National security, law enforcement, and public safety

The Commission shall not impose any limitation, condition, or restriction under subparagraph (B) in a manner that will, or is reasonably likely to, result in limitation, denial, or revocation of authority for non-core services that are used by and required for a national security agency or law enforcement department or agency of the United States, or used by and required for, and otherwise in the public interest, any other Department or Agency of the United States to protect the health and safety of the public. Such services may be obtained by the United States directly from INTELSAT, Inmarsat, or a successor entity, or indirectly through COMSAT, or authorized carriers or distributors of the successor entity.

(D) Rule of construction

Nothing in this subsection is intended to preclude the Commission from acting upon applications of INTELSAT, Inmarsat, or their successor entities prior to the latest date set out in section 763(5)(A) of this title, including such actions as may be necessary for the United States to become the licensing jurisdiction for INTELSAT, but the Commission shall condition a grant of authority pursuant to this subsection upon compliance with sections 763 and 763a of this title.

(2) Criteria for competition test

In making the determination required by paragraph (1), the Commission shall use the licensing criteria in sections 763, 763a, and 763c¹ of this title, and shall determine that competition in the telecommunications markets of the United States will be harmed unless the Commission finds that the privatization referred to in paragraph (1) is consistent with such criteria.

(3) Clarification: competitive safeguards

In making its licensing decisions under this subsection, the Commission shall consider whether users of non-core services provided by INTELSAT or Inmarsat or successor or separated entities are able to obtain non-core services from providers offering services other than through INTELSAT or Inmarsat or successor or separated entities, at competitive rates, terms, or conditions. Such consideration shall also include whether such licensing decisions would require users to replace equip-

ment at substantial costs prior to the termination of its design life. In making its licensing decisions, the Commission shall also consider whether competitive alternatives in individual markets do not exist because they have been foreclosed due to anticompetitive actions undertaken by or resulting from the INTELSAT or Inmarsat systems. Such licensing decisions shall be made in a manner which facilitates achieving the purposes and goals in this subchapter and shall be subject to notice and comment.

(c) Additional considerations in determinations

In making its determinations and licensing decisions under subsections (a) and (b) of this section, the Commission shall construe such subsections in a manner consistent with the United States obligations and commitments for satellite services under the Fourth Protocol to the General Agreement on Trade in Services.

(d) Independent facilities competition

Nothing in this section shall be construed as precluding COMSAT from investing in or owning satellites or other facilities independent from INTELSAT and Inmarsat, and successor or separated entities, or from providing services through reselling capacity over the facilities of satellite systems independent from INTELSAT and Inmarsat, and successor or separated entities. This subsection shall not be construed as restricting the types of contracts which can be executed or services which may be provided by COMSAT over the independent satellites or facilities described in this subsection.

§ 761a. Incentives; limitation on expansion pending privatization

(a) Limitation

Until INTELSAT, Inmarsat, and their successor or separate entities are privatized in accordance with the requirements of this subchapter, INTELSAT, Inmarsat, and their successor or separate entities, respectively, shall not be permitted to provide additional services. The Commission shall take all necessary measures to implement this requirement, including denial by the Commission of licensing for such services.

PART B—FEDERAL COMMUNICATIONS COMMISSION
LICENSING CRITERIA: PRIVATIZATION CRITERIA

§ 763. General criteria to ensure a pro-competitive privatization of INTELSAT and Inmarsat

The President and the Commission shall secure a pro-competitive privatization of INTELSAT and Inmarsat that meets the criteria set forth in this section and sections 763a through 763c¹ of this title. In securing such privatizations, the following criteria shall be applied as licensing criteria for purposes of part A of this subchapter:

(1) Dates for privatization

Privatization shall be obtained in accordance with the criteria of this subchapter of—

(A) INTELSAT as soon as practicable, but no later than April 1, 2001; and

(B) Inmarsat as soon as practicable, but no later than July 1, 2000.

(2) Independence

The privatized successor entities and separated entities of INTELSAT and Inmarsat shall operate as independent commercial entities, and have a pro-competitive ownership structure. The successor entities and separated entities of INTELSAT and Inmarsat shall conduct an initial public offering in accordance with paragraph (5) to achieve such independence. Such offering shall substantially dilute the aggregate ownership of such entities by such signatories or former signatories. In determining whether a public offering attains such substantial dilution, the Commission shall take into account the purposes and intent, privatization criteria, and other provisions of this subchapter, as well as market conditions. No intergovernmental organization, including INTELSAT or Inmarsat, shall have—

(A) an ownership interest in INTELSAT or the successor or separated entities of INTELSAT; or

(B) more than minimal ownership interest in Inmarsat or the successor or separated entities of Inmarsat.

(3) Termination of privileges and immunities

The preferential treatment of INTELSAT and Inmarsat shall not be extended to any successor entity or separated entity of INTELSAT or Inmarsat. Such preferential treatment includes—

(A) privileged or immune treatment by national governments;

(B) privileges or immunities or other competitive advantages of the type accorded INTELSAT and Inmarsat and their signatories through the terms and operation of the INTELSAT Agreement and the associated Headquarters Agreement and the Inmarsat Convention; and

¹ See References in Text note below.

(C) preferential access to orbital locations.

Access to new, or renewal of access to, orbital locations shall be subject to the legal or regulatory processes of a national government that applies due diligence requirements intended to prevent the warehousing of orbital locations.

(4) Prevention of expansion during transition

During the transition period prior to privatization under this subchapter, INTELSAT and Inmarsat shall be precluded from expanding into additional services.

(5) Conversion to stock corporations

Any successor entity or separated entity created out of INTELSAT or Inmarsat shall be a national corporation or similar accepted commercial structure, subject to the laws of the nation in which incorporated, as follows:

(A) An initial public offering of securities of any successor entity or separated entity—

(i) shall be conducted, for the successor entities of INTELSAT, on or about June 30, 2005, except that the Commission may extend this deadline in consideration of market conditions and relevant business factors relating to the timing of an initial public offering, but such extensions shall not permit such offering to be conducted later than December 31, 2005; and

(ii) shall be conducted, for the successor entities of Inmarsat, not later than June 30, 2005, except that the Commission may extend this deadline to not later than December 31, 2004.

(B) The shares of any successor entities and separated entities shall be listed for trading on one or more major stock exchanges with transparent and effective securities regulation.

(C) A majority of the members of the board of directors of any successor entity or separated entity shall not be directors, employees, officers, or managers or otherwise serve as representatives of any signatory or former signatory. No member of the board of directors of any successor or separated entity shall be a director, employee, officer or manager of any intergovernmental organization remaining after the privatization.

(D) Any successor entity or separated entity shall—

(i) have a board of directors with a fiduciary obligation;

(ii) have no officers or managers who are officers or managers of any signatories or former signatories; and

(iii) have no directors, officers, or managers who hold such positions in any intergovernmental organization.

(E) Any transactions or other relationships between or among any successor entity, separated entity, INTELSAT, or Inmarsat shall be conducted on an arm's length basis.

(F) Notwithstanding subparagraphs (A) and (B), a successor entity may be deemed a national corporation and may forgo an initial public offering and public securities list-

ing and still achieve the purposes of this section if—

(i) the successor entity certifies to the Commission that—

(I) the successor entity has achieved substantial dilution of the aggregate amount of signatory or former signatory financial interest in such entity;

(II) any signatories and former signatories that retain a financial interest in such successor entity do not possess, together or individually, effective control of such successor entity; and

(III) no intergovernmental organization has any ownership interest in a successor entity of INTELSAT or more than a minimal ownership interest in a successor entity of Inmarsat;

(ii) the successor entity provides such financial and other information to the Commission as the Commission may require to verify such certification; and

(iii) the Commission determines, after notice and comment, that the successor entity is in compliance with such certification.

(G) For purposes of subparagraph (F), the term “substantial dilution” means that a majority of the financial interests in the successor entity is no longer held or controlled, directly or indirectly, by signatories or former signatories.

(6) Regulatory treatment

Any successor entity or separated entity created after March 17, 2000, shall apply through the appropriate national licensing authorities for international frequency assignments and associated orbital registrations for all satellites.

(7) Competition policies in domiciliary country

Any successor entity or separated entity shall be subject to the jurisdiction of a nation or nations that—

(A) have effective laws and regulations that secure competition in telecommunications services;

(B) are signatories of the World Trade Organization Basic Telecommunications Services Agreement; and

(C) have a schedule of commitments in such Agreement that includes non-discriminatory market access to their satellite markets.

§ 763c. Space segment capacity of the GMDSS

The United States shall preserve the space segment capacity of the GMDSS. This section is

not intended to alter the status that the GMDSS would otherwise have under United States laws and regulations of the International Telecommunication Union with respect to spectrum, orbital locations, or other operational parameters, or to be a barrier to competition for the provision of GMDSS services.

(Pub. L. 87-624, title VI, §624, as added Pub. L. 106-180, §3, Mar. 17, 2000, 114 Stat. 54; amended Pub. L. 109-34, §3, July 12, 2005, 119 Stat. 377.)

AMENDMENTS

2005—Pub. L. 109-34 amended section catchline and text generally, substituting provisions relating to space segment capacity of the GMDSS for provisions relating to specific criteria for Inmarsat privatization.

(A) a list of Member countries of INTELSAT and Inmarsat that are not Members of the World Trade Organization and that impose barriers to market access for private satellite systems; and

(B) a list of Member countries of INTELSAT and Inmarsat that are not Members of the World Trade Organization and that are not supporting pro-competitive privatization of INTELSAT and Inmarsat.

(2) Consultation

The Secretary's determinations under paragraph (1) shall be made in consultation with the Federal Communications Commission, the Secretary of State, and the United States Trade Representative, and shall take into account the totality of a country's actions in all relevant fora, including the Assemblies of Parties of INTELSAT and Inmarsat.

(b) Imposition of cost-based settlement rate

Notwithstanding—

(1) any higher settlement rate that an overseas carrier charges any United States carrier to originate or terminate international message telephone services; and

the Commission may by rule prohibit United States carriers from paying an amount in excess of a cost-based settlement rate to overseas carriers in countries listed by the Commission pursuant to subsection (a) of this section.

(c) Settlements policy

(b) Rulemaking

Within 180 days after March 17, 2000, the Commission shall complete a rulemaking, with notice and opportunity for submission of comment by interested persons, to determine if users or providers of telecommunications services have sufficient opportunity to access INTELSAT space segment capacity directly from INTELSAT to meet their service or capacity requirements. If the Commission determines that such opportunity to access does not exist, the Commission shall take appropriate action to facilitate such direct access pursuant to its authority under this chapter and the Communications Act of 1934 [47 U.S.C. 151 et seq.]. The Commission shall take such steps as may be necessary to prevent the circumvention of the intent of this section.

(3) No joint or several liability

If COMSAT is found liable for any action taken in its status as a signatory or a representative of the party to INTELSAT, any such liability shall be limited to the portion of the judgment that corresponds to COMSAT's percentage of the ownership of INTELSAT at the time the activity began which lead to the liability.
